Bon
Vegan

Product Catalogue

Bon Vegan was established in 2003 by plant based food innovators from Estonia. Since then, we have grown from a small niche to a household brand and to a successful exporter.

Our products are produced with 100% wind energy and always from European raw materials.

Around 70% of all our products are exported to various countries across Europe. Our modern production facilities amid Estonian pure nature offer large production capacity also for private label production.
